M. Keating, G. Laforest (Eds.)

Constitutional Politics and the Territorial Question in Canada and the United Kingdom

Federalism and Devolution Compared

Series: Comparative Territorial Politics

- ▶ **Contributes to our understanding of constitutional and political developments taking place in Canada and the United Kingdom**
- ▶ **Ensures a genuinely comparative approach by taking the two countries together in each case**
- ▶ **Places the study of devolution in the United Kingdom, particularly in Scotland, in a much-needed comparative context**

This book compares the constitutional politics in Canada and the United Kingdom – two complex, multilevel, plurinational states. While the former is federal and the latter a devolved state, the logic of both systems is similar: to combine unity with diversity. Both are facing similar challenges in a world marked by spatial rescaling, international interdependence and economic and social change. The contributors chart these challenges and the responses of the two countries, covering the meanings of federalism and devolution; the role of the courts; fiscal equalization; welfare; party politics; reform by popular referendum and citizen assemblies; and intergovernmental relations. The book will be of interest to students of federalism and multilevel government, state transformation territorial politics on both sides of the Atlantic.
